Anastasia Island Environmental Stewardship Awards

The City of St. Augustine Beach's Sustainability and Environmental Planning Advisory Committee is seeking nominations for the annual Anastasia Island Environmental Stewardship Awards. These awards will recognize individuals, businesses, and organizations that are working to protect the Island's natural resources and enhance its ecosystem. The awards were presented for the first time in the spring of 2019. The Committee is hoping to encourage environmental protection on the Island with this an annual awards program.

Nominations are due March 2, 2020. [The nomination form is available on the City's website.](#)

The objective of environmental stewardship is to reduce impacts on the environment, thereby protecting our natural resources through conservation and sustainable practices. To be considered for recognition, nominees must demonstrate significant achievements through:

- Reducing environmental impacts
- Conserving resources
- Enhancing ecosystems
- Restoring impacted natural resources

The awards will be presented at a public ceremony at City Hall, 2200 A1A South, in the spring.

Climate Change Challenge Survey

The City of St. Augustine Beach Sustainability and Environmental Planning Advisory Council (SEPAC) is conducting a Climate Change Challenge survey until March 25, 2020. Both property owners, renters, and visitors in The City of St. Augustine Beach are requested to participate. The survey will only take about 15 minutes to complete and can be found here:

<https://www.surveymonkey.com/r/SABCLIMATECHANGE>.

“SEPAC is extremely concerned about many environmental issues that affect our beach community, especially sea level rise and climate change,” said Sandra Krempasky, SEPAC chair. “We designed this survey to not only inform us of what we can do as a board, but educate our residents on what they can do to help protect our unique coastal ecosystem.”

This survey will be used for educational purposes, to help gauge the perceptions of the community toward climate change and the motivation of individuals to reduce their carbon emissions, and to examine lifestyle choices in relation to climate change.

The results will be presented at the annual Arbor Day Celebration on April 17, 2020 at St. Augustine Beach City Hall (2200 A1A South, St. Augustine Beach, FL 32080.) The public is invited and encouraged to attend.

Go Green SAB logo

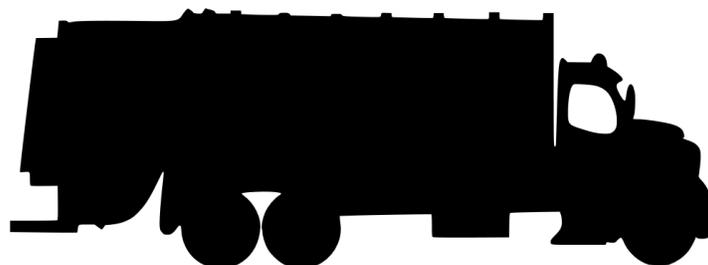

Go Green SAB

The City of St. Augustine Beach is going green! Single-use plastics have long lifespans, impacting local habitats and natural areas, and are not easily recyclable. Eliminating the use of these products decreases litter on our streets and reduces plastics in the environment (especially the ocean).

Starting January 1, 2020, the City is launching a “Go Green SAB” campaign, which encourages businesses in the limits of St. Augustine Beach to voluntarily eliminate the use of these products. To recognize the efforts of businesses who have done so, the City will issue a “Go Green SAB” window cling, as well as mention their efforts on social media and in the City’s monthly e-newsletter.

“It is our goal to get every business in the City limits involved in this campaign,” said St. Augustine Beach Mayor Undine George. “We are excited to be a leader in environmental protection and hope other Cities will follow our example.”

If a business wishes to participate, they can visit the City Manager’s Office (2200 A1A South, St. Augustine Beach, FL 32080) to pick up a window cling starting January 2, 2020. Since this is a voluntary campaign, the City is relying on the word of business owners and managers and will not be conducting inspections or penalizing organizations who do not wish to participate.

Business

Should government in our country be run like a business? What a silly question, you may say/think, because of course government should be run like a business.

Aren't businesses run efficiently? Don't they spend money wisely and productively? And isn't government just the reverse? Well, no and no.

New Emergency Notification System for St. Johns County Residents

St. Johns County is launching a new emergency notification system to provide residents with critical information during emergency situations. Beginning February 1, the new Alert St. Johns system will enable St. Johns County, the St. Johns County Sheriff's Office, the City of St. Augustine, and the City of St. Augustine Beach to quickly provide residents with critical information in a variety of situations including severe weather, unexpected road closures, water advisories, missing persons, evacuations of buildings or neighborhoods, and incidents that may threaten public safety.

To receive these time sensitive alerts, residents can sign up at

<https://member.everbridge.net/index/892807736725582#/login>. Those who sign up can choose to receive notifications via a phone call to their home, business, or mobile phone, by email, or text message. The Alert St. Johns system will replace the Code Red notification system, so it is imperative that residents sign up for these critical notifications. For more information regarding Alert St. Johns, please call 904-824-5550.

The Barber-Mizell Family Fued

On February 21, 1870, Sheriff David Mizell, his son Will, and brother Morgan went onto the property of Moses Barber to serve an arrest warrant. Tensions between the Barbers and Mizells had been growing for years, and the Sheriff had been warned that if he set foot on Barber land he would be killed. When the group stopped at Bull Creek, a shot was fired from behind some bushes. Sheriff Mizell was killed, becoming the first casualty of this long-running feud.
