

St. Augustine Beach Flood Reduction - 7th, 8th, and 9th Street Drainage

News Release Date
12-21-2023

City of St. Augustine Beach Public Notice

St. Augustine Beach Flood Reduction - 7th, 8th, and 9th Street Drainage

UPDATED 05/20/2024

Construction work has begun on 7th Street. During this project, road access may be limited on the western section of 7th Street beginning near 208 7th Street. The contractor has ensured that residents will still be able to access their driveways during this work, however we ask that residents be patient when leaving and returning while workers and equipment are on-site.

SCOPE OF WORK

The 7th 8th & 9th Street Drainage project consists of drainage improvements to 7th, 8th, and 9th Streets west of 2nd Avenue to alleviate recurrent flooding and reduce the potential for flood related losses. This project will also ensure adequate drainage conveyance to the City's master stormwater drainage system, located at the west end of the project site. This project will consist of the design, permitting, and construction of as-necessary drainage improvements that may include drainage structures, piping, swale construction, curb and gutter, and road improvements to reduce the frequency and severity of flooding within the project area.

A Town Hall meeting was held on November 2, 2023. See below files for meeting agenda and minutes/notes.

CURRENT PROJECT PHASE: Construction

Construction is underway.

PROJECT FUNDING:

This project is currently being funded by a State of Florida Legislative Appropriation Grant in the amount of \$90,000. However, due to the limited grant funding, the City will construct only the 7th Street portion of the improvements this fiscal year.

Budget funding for 8th and 9th Street Improvements have been requested in future fiscal year budget periods.

7TH STREET PROJECT SCHEDULE:

05/06: Staging of materials and equipment; Erosion & Sedimentation Control installation; begin removal of existing drainage pipe and structure. **COMPLETED** ✓

05/09: Installation of new drainage pipe and structure. **COMPLETED** ✓

05/14: Roadwork begins.

05/20: Curb installation. **COMPLETED** (5/16) ✓

06/06: Paving

06/10: Clean up.

06/17: Substantial completion.

Please note that these dates are tentative and are subject to change.
